UnitFlow ERP

FACTORY MANAGEMENT SYSTEM

Streamline. Monitor. Produce.
All in One Flow.

UnitFlow ERP is a complete factory management system that unifies production, inventory, procurement, quality, and dispatch in a single, intelligent platform. Designed for manufacturers who demand real-time visibility, operational control, and measurable performance.

KEY FEATURES

- End-to-End Manufacturing Control**
From planning to dispatch, manage every step with real-time visibility.
- Smart Inventory & Stock Intelligence**
Track stock in real time with alerts for reorder, aging, and slow-moving items.
- Quality Assurance & Compliance**
Run inspections, track QC status, and ensure product quality at every stage.
- Procurement & Vendor Management**
Manage POs, GRNs, vendor performance, and payment cycles efficiently.
- Analytics & Performance Insights**
Visual dashboards and reports to drive faster, data-backed decisions.

Transcript Summary

Nova (AI) 00:00:05
Hi Riya, this is Nova from Vocely. Is this a good time to talk?

Riya Sharma 00:00:07
Yes, this is a good time.

Nova (AI) 00:00:12
Great! I'm reaching out because we help teams like yours automate outreach and book more meetings. Is that something you're looking to improve?

Summary

Lead is interested in product demo and wants to explore enterprise plan.

Key Points

- Interested in demo
- Team of 20+ users
- Budget in ₹50K – ₹1L range
- Wants to implement this month
